

SHANICE JONES

SOFTWARE DEVELOPER | BACKEND .NET

1-876-875-1064 shanicejones567890@gmail.com

PROFESSIONAL SUMMARY

Software developer with professional experience building and maintaining commercial web applications using C#, .NET, ASP.NET Web API, and SQL Server. Experienced in designing RESTful APIs and backend services, collaborating in Agile/Scrum teams, writing automated tests, debugging production issues, and delivering maintainable software throughout the application lifecycle. Strong foundation in Java, Python, JavaScript, PHP, and SQL, with experience across cloud, containerization, databases, testing, and version control.

TECHNICAL SKILLS

Languages	C#, Java, Python, JavaScript, PHP, SQL, C, HTML, CSS
Backend & Frameworks	.NET Core, ASP.NET Web API, Spring Boot, Flask, React
Cloud & DevOps	Azure, Docker
Databases	SQL Server (MSSQL), PostgreSQL, MySQL
Testing & API Tools	JUnit, Playwright, Postman, SoapUI
Version Control	Git, Azure Repositories

PROFESSIONAL EXPERIENCE

- Sagicor Group Jamaica — Programmer Analyst**

May 2024 – Present

 - Develop and maintain commercial web applications using C#, .NET Core, ASP.NET Web API, and SQL Server, delivering scalable and reliable backend solutions.
 - Design and integrate RESTful APIs and backend services, working with existing systems and databases to translate business requirements into production-ready functionality.
 - Collaborate with business analysts, QA engineers, and developers within Agile/Scrum teams across design, implementation, testing, deployment, and production support.
 - Write clean, maintainable, and well-documented code while participating in code reviews, debugging, testing, and production support throughout the application lifecycle.
 - Build and maintain unit and integration tests to improve application quality, reliability, and performance.
- Grid Dynamics: Global Digital Engineering Company — Software Engineering Intern**

Oct 2023 – Apr 2024

 - Built a fully functioning Spring Boot web application using RESTful APIs.
 - Worked within an Agile project development environment, contributing to software development activities and team delivery.
- National Housing Trust — Secretary**

Jul 2019 – Sep 2019

 - Prepared and maintained business documents, including memos, emails, and data logs.
 - Organized and maintained important records and files to support efficient document management.
- Jamaica Customs Agency — Secretary**

Jul 2018 – Sep 2018

 - Organized and maintained important documents and records.
 - Handled customer service calls and supported day-to-day administrative activities.

EDUCATION

University of the West Indies	Feb 2024
BSc Computer Science — First Class Honors	
Wolmer's Girls School	2013 – 2020

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900)	Sep 2026
--	----------

ADDITIONAL STRENGTHS

Problem solving • Interpersonal communication • Customer service • Leadership • Collaborative Agile development
• Software testing • Backend development

CAREER HIGHLIGHTS

- Commercial software development: Professional experience supporting business applications and backend services in a commercial environment.
- Backend engineering: Hands-on experience with C#, .NET, ASP.NET Web API, RESTful APIs, and SQL Server.
- Software quality: Experience with unit and integration testing, debugging, code reviews, and production support.
- Team delivery: Experience collaborating with cross-functional Agile/Scrum teams including business analysts, QA engineers, and developers.
- Broad technical foundation: Working knowledge across Java, Python, JavaScript, PHP, React, Spring Boot, Flask, Azure, Docker, and relational databases.
